CYBERSECURITY ALERT
FAKE ELEARNING SITES

Internet hackers are currently taking advantage of the suspension of schools due to the Corona Virus (Covid-19) by promoting some fake educational sites. They share malicious electronic links via social networks in order to penetrate digital devices. Therefore, Oman CERT advises students and parents to:

- Avoid disclosing passwords or personal data on browsed websites.
- Confirm the identity of your online resources (ministry\school\teachers) before you friend \follow them online.
- Do Not download any materials that you may receive via shared direct online resources.
- When needed, Use alternative account (different username - password) to log into different websites, to avoid stealing your official account.
- Quickly ask for help from the teacher or a family member when you are being harassed or cyberbullied.
